About Us:

Due to several significant new commissions, we are looking for registered architects to join our team on an initial 6-month contract. We make thoughtful, sustainable, and beautiful buildings and places, and deliver them to the highest standards.

The role will involve becoming a key member of our small but growing team while delivering interesting new housing and public buildings with opportunities for further career development.

Responsibilities:

- Take a leading role in the design development and technical execution of projects, with oversight from the practice director.
- Coordinate with design teams and other external consultants.
- Work closely with the practice director and support other team members.
- Engage in the development of standards and processes within the practice.
- Support the practice in maintaining a consistently high quality output.

About You:

- 5+ years' post graduate experience.
- Registered Architect in Ireland or eligible to join the register without further examination.
- Confident, ambitious and creative, capable of finding solutions in complex situations.
- Excellent written and verbal communication skills and the ability to coordinate with clients, design teams and contractors.
- Previous Mid/Senior level experience in medium/large scale projects in housing, education, hospitality or retail sectors would be an advantage.
- Previous experience with Special Educational Needs (SEN) School design is a distinct advantage.
- Working knowledge of Irish Planning and Building Regulations and on-site procedures.
- Revit proficiency is required for this role.

We Offer:

- A supportive, friendly studio environment
- Competitive salary dependant on experience
- Hybrid working for the right candidates
- Flexible working hours
- CPD training provided by the company
- Cycle to work scheme
- Professional memberships paid by the company
